The starting signal has been given

Verden Auction Online in July

Verden. Since Monday there has been a lot of activity on the facilities of the Training and Sales Centre of the Hannoveraner Verband. The horses of the Verden Auction Online in July have been delivered and are now ready to be tried out by appointment. The 56 selected auction candidates will be auctioned on Saturday, July 16, starting at 2 pm CET. First bids on the desired candidates can be placed from Sunday, July 10.

Like Looping Luna, the title heroine of the auction brochure, numerous Verden auction horses have made the jump to top sport. The collection of the Verden Auction Online in July has something for everyone. An exceptional talent for the dressage ring is the head number 1. The four-year-old Fürst Wilhelm son Fürst Eschenhof (breeder and exhibitor: Katja and Jens Stelling, Osten) inspires with his dynamic basic gaits. His dam Wayona by Warkant/Don Frederico is a full sister of the licensed stallion Wake Up NM, who is successful in the medium class under the saddle of Anna Thierfelder. Pius by Perigueux/Drosselklang II (breeder and exhibitor: Eduard Voss, Eydelstedt) opens the collection of show jumping horses at the Verden Online Auction in July with head number 3. The highly talented bay secured a ribbon in each of his competition starts in novice (A) level tests for young show jumpers and clearly shows a lot of scope at the jump.

On the auction website of the Hanoverian Verband www.verdener-auktion-online.com every auction horse is presented with photos, videos and all important information. The opening presentation will take place on Saturday, July 9, from 10 a.m. CET at the

Hannoveraner Rhythmus

Niedersachsenhalle in Verden. It will be broadcast live on the internet, as will the second presentation on Wednesday, July 13, and the free jumping on Friday, July 15. The final bid up will start on Saturday, July 16, at 2 pm CET.
